

Make-up instructions:

In your make up pallets there are 4 shadows - 1 being the lightest color and 4 being the darkest color. As you apply the make-up we will refer to them as 1, 2, 3 4 going from lightest to darkest color.

There are also 3 face colors - Blush, contour and highlight. Please use these to best suit your skin tone.

To apply the eye shadow please follow steps below:

Step 1: Apply Shadow 1 onto the inner corner of the eye and blend to the middle of the lid

Step 2: On top of this add Shadow 2 and blend (again stopping at the middle of the lid)

Step 3: Next use Shadow 3 on the outer corner of the eye and blend into the middle of the lid to meet the lighter colors and the center of the lid.

Step 4: To blend further use Shadow 1 where the light and darker colors meet to make the transition smoother (if needed)

Step 5: Finally, use Shadow 4, lightly, on the outer corner, near the lash line this time and blend to darken and blend with Shadow 3.

*Apply eyeliner - only at lash line (no cat eyes)

*Apply mascara or false lashes

For Face make-up:

1)Apply Foundation that best suits your skin tone (not necessary if you don't normally wear it)

2)Apply Blush from make up pallets

3)Apply Contour and Highlight as needed

Lips:

Please use ONLY the RED RUTHLESS lip stick provided with make up

*Everyone will need to purchase their own eyeliner, foundation, mascara & lashes

We recommend you label your make-up pallet and lipstick. We do have some make-up bags available for purchase in the Pro Shop.
